## NOTES ON NEWS OF THE DAY.

The West Indies cyclone reached the Gulf Coast yesterday, and raged with violence in all the Southern Atlantic States. The wind reached 60 miles an hour at Key West. Cool weather is moving down upon this section from the West.

St. Lawrence Republicans made their nominations for Assembly yesterday. Gen. N. M. Curtis was renominated for an eighth term in the first district, and Wm. H. Kimball for a fourth term in the second. Wm. Bradford was nominated in the third to succeed Michael Flaherty. Mr. Bradford represented the district in 1870 and 1871.

An invasion of fleas has caused School No. 9 of Troy to be closed. Carbolic acid was used to drive out the pests, but they threw upon it. The odor, on the contrary, drove the children out and left the premises to the free use of the fleas. The school building stands on land that was formerly a swamp, and the season has been favorable for a flea crop.

L. W. Emerson yesterday received the Republican nomination for Senator for the nineteenth district, composed of Clinton, Essex and Warren counties. This district has been represented for four years by Hon. R. C. Kellogg. It is one of the districts that Gov. Hill proposes to capture by running the son of Smith M. Weed. Mr. Kellogg had no opposition in 1887. The district gave 4,911 majority for Harrison last fall.

The announcement that Major Warner had declined the Pension Commission's nomination was premature. The President is looking for the man who will be most satisfactory to the Grand Army veterans, and it is understood that Warner will make the sacrifice of his big law business unless some other man equally acceptable is found. Democratic editors have recently been indulging the hope that a person would be selected whom the veterans do not want.

The National Association of Wool Manufacturers at its session in Boston declared yesterday by resolution that "the manufacturers do not ask lower duties on wool than at present, and the grower is entitled to protection as well as the manufacturer." This resolution was adopted by a unanimous vote. Free trade newspapers have recently been depicting the woolen manufacturers of the country as in a state of revolution against the tariff. They were evidently mistaken.

The Republicans of New Jersey yesterday nominated E. Bird Grubb for Governor. The Philadelphia Record, Democratic, says that "Republicans have probably put their best foot forward" in making this nomination. Gen. Grubb is 48 years old and served through the war, beginning as Second Lieutenant and closing with the rank of Brigadier General. He is a wealthy iron manufacturer and resides at Beverly. There was much enthusiasm at the convention, and general confidence that victory was within reach.

SENATOR WM. C. SOMERVELL of the Maryland Legislature announces his withdrawal from the Democratic party and has sent the resignation of his office to the Governor. He proposes to act with the Republican party in the future, his reason being that he is disgusted with the Democratic party of Maryland. Cleveland's plurality in the state was only 6,182, and this narrow margin was attributed to Somervell's popularity in Baltimore. Twelve of the 23 counties in the state gave Republican majorities. The Republicans are greatly encouraged, and will make a vigorous effort to elect a Mayor in Baltimore.

Mrs. EVA HAMILTON pleaded not guilty yesterday. Her trial was to begin to-day, and it was expected that the testimony would be all in and the arguments of counsel concluded this afternoon. The wretched woman who was lately so successful in marrying "out of her set," is likely to spend several years in a Jersey prison. Even this, however, ought to be received as a relief, for the gallows appeared to be beckoning for her a fortnight ago. Mr. Hamilton has wholly deserted her, an act that he never considered for a moment until he became convinced that the baby was spurious.

Gov. FOWLE of North Carolina has issued a proclamation enjoining all officers to exert themselves to arrest the persons engaged in the recent lynchings in that state. Did Gov. Hill issue a proclamation to the officers of this state to arrest John L. Sullivan when he was engaged in a criminal proceeding punishable with fine and imprisonment? Not at all; our Governor could not interfere until some prosecuting officer or committing magistrate had initiated proceedings, we have been informed on Democratic authority. There is a very wide difference of view in regard to executive duty between our Governor and the Governors of North Carolina and Mississippi.

This year the amount of state taxes exceeds that of last year by the sum of \$1,460,000. The necessity of this unprecedented increase is difficult to explain. Gov. Hill at Sullivan County Fair.

Unprecedented, did you say, Governor? There you are off again as badly as when you called Gov. Young a Democrat. In 1869 the state tax was \$10,463,179, and in 1870 it rose to \$14,285,977, an increase of \$3,822,798. The state at that time had a Democratic Governor and Legislature. Again, in 1871 the state tax was \$11,613,943, and in 1872 it rose to \$18,580,893, an increase of \$6,966,950 or more than double the increase of which the Governor is talking. This increase was made by a Republican Legislature for the purpose of paying the bounty debt after the Democrats under Tweed had stolen \$15,000,000 of money raised for the same purpose in the five years preceding. Coming down to 1881, when A. B. Cornell was Governor and both houses of the Legislature Republican, we find the state tax to have been \$6,083,830, the lowest point reached in forty years. Two years later Grover Cleveland was Governor and the Legislature was Democratic in both houses. In that year the state tax rose to \$9,384,836, an increase of \$3,302,006 over 1881. If there is a public man in New-York more ignorant of the history of his state than Gov. Hill, the Democratic party will be glad to see him, for it certainly has use for him.

## MRS. ROBERT R. HAMILTON ON TRIAL.

Mrs. Ann Donnelly, Whom She Assailed, Was Among Witnesses Examined.

By Telegraph to the Freeman. MAYS LANDING, N. J., Sept. 18.—The Court room was crowded this morning with people anxious to hear the proceedings in the case of Mrs. Robert R. Hamilton, indicted for atrocious assault upon her child's nurse, Mary Donnelly, and to get a glimpse of the principal in the affair. At 11 o'clock the case of Mrs. Hamilton was called and at about the same time the outer doors were swung open and Mrs. Hamilton entered, leaning on the arm of Captain Perry, her counsel. Immediately following were Mrs. Rupp, proprietress of Noll Cottage, and Mary Ann Donnelly, the nurse. They were all shown seats within the rail. Mrs. Hamilton sitting beside her counsel. She looked pale and wan, and her face showed evidence of the strain of her close confinement. Robert R. Hamilton, a few minutes later, entered the court room and took a seat beside Mrs. Rupp. He did not look towards his wife. The work of selecting a jury was quickly disposed of, the full quota being selected in a comparatively short time. Mrs. Hamilton frequently sobbed and during the selection of the jury, and gave every evidence of hopeless despondency.

Prosecutor of the Pleas Thompson, after the jury had been empaneled, opened the case for the prosecution and reviewed the details of the assault. Mrs. Hamilton upon the nurse. Dr. Crosby, the first witness, described the nature of the wound and stated that Mrs. Donnelly was now entirely out of danger.

Mary Ann Donnelly was next called. She testified that on the morning of the assault she responded to Mrs. Hamilton's call to lock her trunk. Upon reaching the door of the room she saw that Mr. and Mrs. Hamilton had been quarreling and that Mr. Hamilton's shirt had been torn off. At Mr. Hamilton's request she went in search of a policeman but could not find one. She returned to the room when Mrs. Hamilton seized her by the throat and called her a vile name. The witness grappled with Mrs. Hamilton and demanded that she withdraw the epithet. Mrs. Hamilton then threw a bottle at her. Mr. and Mrs. Hamilton then grappled and the witness stood in the door, which was half open, when Mrs. Hamilton suddenly sprang towards her and drove the knife into her side. [The knife was shown to the witness and identified.] Continuing the witness said Mrs. Hamilton was of a quarrelsome disposition, but she had never had any serious quarrel with her previous to the stabbing. Nothing of importance was developed in the cross-examination of the nurse by Captain Perry and at its conclusion the Court adjourned. Mrs. Hamilton was led from the Court room sobbing bitterly, while her husband, Mrs. Rupp and the nurse went out together.

## A University Safe Robbed.

By Telegraph to the Freeman. BUFFALO, N. Y., Sept. 18.—Last Sunday morning, between 8 and 9 o'clock, while all the students and Faculty of Niagara University, which is located between Suspension Bridge and Lewiston, were in attendance at mass, in the Chapel, the safe in the office of Father Tully, who is Treasurer of the University, was robbed of \$1,400 in cash and a check for \$200. The thief or thieves were probably familiar with the premises, as they broke open a drawer and obtained the key to the safe. They left behind a large hatchet and hammer.

## Frosts and Snow in the West.

By Telegraph to the Freeman. DUBUQUE, Ia., Sept. 18.—Heavy frost is reported in this locality and all along the line of the Illinois Central Railway west. Crops are said to have been greatly injured in many places.

Two months ago 80 died from starvation. Last winter a number died owing to previous privation which could not be called actual death from starvation, though in reality that was the cause.

## A State Robbed.

By Telegraph to the Freeman. NEW-ORLEANS, Sept. 18.—There are now new developments regarding the Seminary and Agricultural and Mechanical College bonds, the fact that the bonds are on the market. There seems to be no doubt that the State has been robbed of bonds amounting to \$278,400 and the interest paid on them, amounting to \$50,000 more making in all \$328,400.

## A Chinese Consul-General Sued.

## Saw a Large Balloon.

By Telegraph to the Freeman. PARIS, Tex., Sept. 18.—A large balloon, believed to have been 100 feet in width, was sighted by citizens here yesterday. It drifted southward and was lost in the clouds.

By Telegraph to the Freeman. NEW-YORK, Sept. 18.—Judge Van Brunt to-day appointed John Van Gland Receiver of the Equitable Reserve Fund Life Association.

## WHAT JOSEPH CHAMBERLAIN SAYS.

Unionist Leaders Have Learned to Work Together and Trust Each Other.

By Cable to the Freeman. LONDON, Sept. 18.—Speaking at a political meeting at Huddersfield last evening Joseph Chamberlain predicted that the alliance between the Liberal Unionists and Conservatives would continue until the agitation in favor of the separation of England and Ireland was killed. He thought at the time the alliance was formed it meant his sacrificing for a long time many cherished political objects, but he had found that he had not been called upon to make any sacrifice. The Unionist leaders had learned to work together and to trust each other.

## In the Political Field.

By Telegraph to the Freeman. ALBANY, N. Y., Sept. 18.—The First Assembly Republican Delegates to the State Convention are: John G. Schneider, Samuel Winne, Thomas J. Ward, Frederick Boulet, Frederick Schifferdecker.

Warren County have elected the following delegates to the State Convention: Scott Barton, Lyman Jenkins, D. F. Keefe, James Green and W. E. Fuller.

## Philadelphia, Sept. 18.—The Republican primary elections which were held last night were chiefly remarkable for the harmony which prevailed throughout nearly all the wards in the City.

Utica, N. Y., Sept. 18.—The Third District Democratic Convention of Onondaga County, held at Clayville to-day, assembled as delegates to the State Convention J. C. Greenman, S. J. Barrows and D. A. Dishler.

## Asking for Lower Coal Rates.

By Telegraph to the Freeman. WILKESBARRE, Pa., Sept. 18.—The first organized effort of the anthracite coal people to fight the bituminous men was made last evening at Scranton, when the Board of Trade of that city recommended that a conference of representatives of the anthracite trade be held at an early day for the purpose of taking some steps to get the railroad companies to reduce their carrying rates for small sizes of anthracite to the Eastern cities. The anthracite people claim that if they can get anything like fair rates from the railroad companies they can put anthracite in markets where bituminous now holds the board. In 1880 the output of bituminous coal was 4,370,000 tons; in 1888 it had increased to 12,350,000. Nearly this growth has gone to supersede anthracite for steam production in the great factories of the Eastern States.

## Probably Lost With All on Board.

By Telegraph to the Freeman. CLEVELAND, O., Sept. 18.—The steam yacht Leo left Lorain for this port on Sunday afternoon, having on board John B. Kente, J. D. Lawler, T. P. Ritter, Benjamin Kline, S. D. Knight, D. A. Lawler, Captain Samuel Root, Frederick Pelow and an engineer from Detroit, none known. Nearly all of them were prominent business men of Lorain. The yacht was a small one and had just been purchased at Detroit. It encountered a heavy sea on Sunday night and was probably lost with all on board near Rocky River. The bodies of Ritter and Lawler were found by the life-saving crew floating in the Lake this afternoon. The remaining bodies are being searched for.

## Trying to Lynch Prisoners.

By Telegraph to the Freeman. SOMERSET, Pa., Sept. 18.—The town was aroused Monday night by an attempt to rescue the Nicelys, but a heavy guard being around the jail a dozen or so shots caused the would-be rescuers to disappear. Yesterday a squad of blacksmiths chained six or eight of the most dangerous prisoners to the floor. Monday night several hundred farmers organized to march on the jail and take out the Nicelys and a number of other desperadoes, including Lehr, of Pittsburg, and string them up. The extreme darkness and a heavy rain caused the mob to disperse. Should Deputy Sheriff McMillan die, it will go hard with the prisoners.

## The Death Record.

James McCollum died at Belaski, Tenn., yesterday. He was the oldest Mason in Tennessee, served in the Confederate Congress, and was several times elected to the Legislature from Giles County.

Colonel William Allen, Principal of the McDonough School, Baltimore County, Md., died yesterday. He was a native of Maryland, and was a member of the Maryland State Guard during the war. Dr. Louis Mass, famed in the old world and the new as a pianist and composer, died last night of peritonitis in Boston.

## An Alleged Disgraceful Exposure.

By Telegraph to the Freeman. SPOKANE FALLS, W. T., Sept. 18.—A disgraceful exposure has just been made here which implicates two members of the Common Council and a police officer. They are charged with having formed a conspiracy to appropriate the funds and supplies furnished by contributions for the relief of those who suffer by the recent disastrous fire. It has long been suspected that a conspiracy existed in the Council for boodle purposes, and a permanent Citizens' Committee has been organized to protect the people against official misconduct of any character.

## Investigating a Murder.

By Telegraph to the Freeman. ATHENS, Ont., Sept. 18.—At the preliminary examination into the charge against George Carr, of murdering Lewis Day, a little son of Day's testified that his father and Carr entered a deserted house near Morris-town, N. Y., and Carr emerged alone, that he subsequently visited the house and found his father's dead body in the cellar with his throat cut. Parties have left to search for the body. Carr has been intimate with Mrs. Day ever since Day disappeared. The boy had been kept silent by threats of death.

The steamship Cubic, from Liverpool, reports passing the bark Barone Podesta, of Genoa, with foremast standing, but all other masts and rigging gone.

## All Quiet in London.

By Cable to the Freeman. LONDON, Sept. 18.—Work on the docks is assuming its normal aspect. Fewer non-Union men are employed, and many of the men engaged to fill the places of strikers are joining the Union. There have been no attacks this morning upon "black legs" by the men who took part in the strike.

Three thousand men assembled outside the Victoria dock this forenoon and demanded the dismissal of the men taken on during the strike before they returned to work. The directors refused to grant the demand. The men at work are guarded by policemen.

## A Lingus Lord's Son in Trouble.

By Telegraph to the Freeman. PHILADELPHIA, Sept. 18.—Young L. Linton Plucker, who swindled a number of Camden people by posing as "Mr. F. Harcourt Harbury, son of Lord Alton, of Alton-town, Devonshire, England," will have an opportunity to repeat for his reckless ways by undergoing imprisonment in the Huntington Reformatory. When Plucker was brought before Judge Pennypacker yesterday he pleaded guilty to forgery.

## Spaniards to be Sold into Slavery.

By Cable to the Freeman. MADRID, Sept. 18.—The Captain, four sailors and one passenger of the Spanish vessel which was captured by natives off the Riff coast of Morocco have been carried into the interior, the captors intending to sell them into slavery. The Spanish Government will make an immediate demand on the Sultan of Morocco for the release of the prisoners.

## No One Hurt.

By Telegraph to the Freeman. BOONTON, N. J., Sept. 11.—The Oswego express, due in New-York at 7:30 A. M., to-day was thrown from the track near Boonton by a switch being left loose. It caused the rails to spread. All the cars except the engine left the track, but, as the train was near the station and not under full speed, no one was hurt.

## General Merrill Will Succeed Tanner.

By Telegraph to the Freeman. WASHINGTON, Sept. 18.—There is no longer any doubt that General Warner has declined the President's tender of the Commissioner'ship of Pensions or that General George S. ## NOTES ON NEWS OF THE DAY.

The West Indies cyclone reached the Gulf Coast yesterday, and raged with violence in all the Southern Atlantic States. The wind reached 60 miles an hour at Key West. Cool weather is moving down upon this section from the West.

St. Lawrence Republicans made their nominations for Assembly yesterday. Gen. N. M. Curtis was nominated for an eighth term in the first district, and Wm. H. Kimball for a fourth term in the second. Wm. Bradford was nominated in the third to succeed Michael Flaherty. Mr. Bradford represented the district in 1870 and 1871.

An invasion of fleas has caused School No. 9 of Troy to be closed. Carbolic acid was used to drive out the pests, but they thrived upon it. The odor, on the contrary, drove the children out and left the premises to the free use of the fleas. The school building stands on land that was formerly a swamp, and the season has been favorable for a flea crop.

L. W. Barnson yesterday received the Republican nomination for Senator for the nineteenth district, composed of Clinton, Essex and Warren counties. This district has been represented for four years by Hon. R. C. Kellogg. It is one of the districts that Gov. Hill proposes to capture by running the son of Smith M. Weed. Mr. Kellogg had no opposition in 1887. The district gave 4,911 majority for Harrison last fall.

The announcement that Major Warner had declined the Pension Commission was premature. The President is looking for the man who will be most satisfactory to the Grand Army veterans, and it is understood that Warner will make the sacrifice of his big law business unless some other man equally acceptable is found. Democratic editors have recently been indulging the hope that a person would be selected whom the veterans do not want.

The National Association of Wool Manufacturers, at its session in Boston declared yesterday by resolution that "the manufacturers do not ask lower duties on wool than at present, and the grower is entitled to protection as well as the manufacturer." This resolution was adopted by a unanimous vote. Free trade newspapers have recently been depicting the woolen manufacturers of the country as in a state of revolution against the tariff. They were evidently mistaken.

The Republicans of New Jersey yesterday nominated E. Bird Grubb for Governor. The Philadelphia Record, Democratic, says the "Republicans have probably put their best foot forward" in making this nomination. Gen. Grubb is 48 years old and served through the war, beginning as Second Lieutenant and closing with the rank of Brigadier General. He is a wealthy iron manufacturer and resides at Beverly. There was much enthusiasm at the convention, and general confidence that victory was within reach.

SENATOR WM. C. SOMERVELL of the Maryland Legislature announces his withdrawal from the Democratic party and has sent the resignation of his office to the Governor. He proposes to act with the Republican party in the future, his reason being that he is disgusted with the Democratic party of Maryland. Cleveland's plurality in the state was only 6,182, and this narrow margin was attributed to Somervell's popularity in Baltimore. Twelve of the 23 counties in the state gave Republican majorities. The Republicans are greatly encouraged, and will make a vigorous effort to elect a Mayor in Baltimore.

Mrs. EVA HAMILTON pleaded not guilty yesterday. Her trial was to begin to-day, and it was expected that the testimony would be all in and the arguments of counsel concluded this afternoon. The wretched woman who was lately so successful in marrying "out of her set," is likely to spend several years in a Jersey prison. Even this, however, ought to be received as a relief, for the gallows appeared to be beckoning for her a fortnight ago. Mr. Hamilton has wholly deserted her, an act that he never considered for a moment until he became convinced that the baby was spurious.

Gov. FOWLE of North Carolina has issued a proclamation enjoining all officers to exert themselves to arrest the persons engaged in the recent lynchings in that state. Did Gov. Hill issue a proclamation to the officers of this state to arrest John L. Sullivan when he was engaged in a criminal proceeding punishable with fine and imprisonment? Not at all; our Governor could not interfere until some prosecuting officer or committing magistrate had initiated proceedings, we have been informed on Democratic authority. There is a very wide difference of view in regard to executive duty between our Governor and the Governors of North Carolina and Mississippi.

This year the amount of state taxes exceeds that of last year by the sum of \$3,460,000. The necessity of this unprecedented increase is difficult to explain. Gov. Hill at Sullivan County Fair.

Unprecedented, did you say, Governor? There you are off again as badly as when you called Gov. Young a Democrat. In 1869 the state tax was \$10,463,179, and in 1870 it rose to \$14,285,977, an increase of \$3,822,798. The state at that time had a Democratic Governor and Legislature. Again, in 1871 the state tax was \$11,613,943, and in 1872 it rose to \$18,580,882, an increase of \$6,966,939 or more than double the increase of which the Governor is talking. This increase was made by a Republican Legislature for the purpose of paying the bounty debt after the Democrats under Tweed had stolen \$15,000,000 of money raised for the same purpose in the five years preceding. Coming down to 1881, when A. B. Cornell was Governor and both houses of the Legislature Republican, we find the state tax to have been \$6,082,830, the lowest point reached in forty years. Two years later Grover Cleveland was Governor and the Legislature was Democratic in both houses. In that year the state tax rose to \$9,384,836, an increase of \$3,302,006 over 1881. If there is a public man in New-York more ignorant of the history of his state than Gov. Hill, the Democratic party will be glad to see him, for it certainly has use for him.

## MRS. ROBERT R. HAMILTON ON TRIAL.

Mrs. Ann Donnelly, Whom She Assailed, Was Among Victims Examined.

By Telegram to The Freeman.

MAYS LANDING, N. J., Sept. 18.—The Court room was crowded this morning with people anxious to hear the proceedings in the case of Mrs. Robert R. Hamilton, indicted for atrocious assault upon her child's nurse, Mary Donnelly, and to get a glimpse of the principal in the affair. At 11 o'clock the case of Mrs. Hamilton was called and at about the same time the outer doors were swung open and Mrs. Hamilton entered, leaning on the arm of Captain Perry, her counsel. Immediately following were Mrs. Rupp, proprietress of Noli Cottage, and Mary Ann Donnelly, the nurse. They were all shown seats within the rail. Mrs. Hamilton sitting beside her counsel. She looked pale and wan, and her hand showed evidence of the strain of her close confinement. Robert R. Hamilton, a few minutes later, entered the court room and took a seat beside Mrs. Rupp. He did not look towards his wife. The work of selecting a jury was quickly disposed of, the full quota being selected in a comparatively short time. Mrs. Hamilton frequently sobbed aloud during the selection of the jury, and gave every evidence of hopeless despondency.

Prosecutor of the Pleas Thompson, after the jury had been empaneled, opened the case for the prosecution and reviewed the details of the assault of Mrs. Hamilton upon the nurse. Dr. Crosby, the first witness, described the nature of the wound and stated that Mrs. Donnelly was now entirely out of danger. Mary Ann Donnelly was next called. She testified that on the morning of the assault she responded to Mrs. Hamilton's call to lock her trunk. Upon reaching the door of the room she saw that Mr. and Mrs. Hamilton had been quarreling and that Mr. Hamilton's shirt had been torn off. At Mr. Hamilton's request she went in search of a policeman but could not find one. She testified to the room when Mrs. Hamilton seized her by the throat and called her a vile name. The witness grappled with Mrs. Hamilton and demanded that she withdraw the epithet. Mrs. Hamilton then threw a bottle at her. Mr. and Mrs. Hamilton then grappled and the witness stood in the door, which was half open when Mrs. Hamilton suddenly sprang towards her and drove the knife into her side. [The knife was here shown the witness and identified.] Continuing the witness said Mrs. Hamilton was of a quarrelsome disposition, but she had never had any serious quarrel with her previous to the stabbing. Nothing of importance was developed in the cross-examination of the nurse by Captain Perry and at its conclusion the Court adjourned. Mrs. Hamilton was led from the Court room sobbing bitterly, while her husband, Mrs. Rupp and the nurse went out together.

Unionist Leaders Have Learned to Work Together and Trust Each Other.

By Cable to The Freeman.

LONDON, Sept. 18.—Speaking at a political meeting at Huddersfield last evening Joseph Chamberlain predicted that the alliance between the Liberal Unionists and Conservatives would continue until the agitation in favor of the separation of England and Ireland was killed. He thought at the time the alliance was formed it meant his sacrificing for a long time many cherished political objects, but he had found that he had not been called upon to make any sacrifice. The Unionist leaders had learned to work together and to trust each other.

## Asking for Lower Coal Rates.

By Telegram to The Freeman.

WILKESBARRE, Pa., Sept. 18.—The first organized effort of the anthracite coal people to fight the bituminous men was made last night at Scranton when the Board of Trade of that City recommended that a conference of representatives of the anthracite trade be held at an early day for the purpose of taking some steps to get the railroad companies to reduce their carrying rates for small sizes of anthracite to the Eastern cities. The anthracite people claim that if they can get anything like fair rates from the railroad companies they can put anthracite in markets where bituminous now holds the board. In 1880 the output of bituminous coal was 4,370,000 tons; in 1888 it had increased to 12,350,000. Nearly all this growth has gone to supply the anthracite for steam production in the great factories of the Eastern States.

The yacht was a small one and had just been purchased at Detroit. It encountered a heavy sea on Sunday night and was probably lost with all on board near Rocky River. The bodies of Ritter and Lawler were found by the life-saving crew floating in the Lake this afternoon. The remaining bodies are being searched for.

## Trying to Lynch Prisoners.

Yesterday a squad of blacksmiths chained six or eight of the most dangerous prisoners to the floor. Monday night several hundred farmers organized a march on the jail and take out the Nicelys and a number of other desperadoes, including Lehr, of Pittsburgh, and string them up. The extreme darkness and a heavy rain caused the mob to disperse. Should Deputy Sheriff McMillan die, it will go hard with the prisoners.

It has long been suspected that a conspiracy existed in the Council for boodle purposes, and a permanent Citizens' Committee has been organized to protect the people against official misconduct of any character.

## NOTES ON NEWS OF THE DAY.

The West Indies cyclone reached the Gulf Coast yesterday, and raged with violence in all the Southern Atlantic States. The wind reached 60 miles an hour at Key West. Cool weather is moving down upon this section from the West.

ST. LAWRENCE Republicans made their nominations for Assembly yesterday. Gen. N. M. Curtis was nominated for an eighth term in the first district, and Wm. H. Kimball for a fourth term in the second. Wm. Bradford was nominated in the third to succeed Michael Flaherty. Mr. Bradford represented the district in 1870 and 1871.

An invasion of fleas has caused School No. 9 of Troy to be closed. Cerberic acid was used to drive out the pests, but they thrived upon it. The odor, on the contrary, drove the children out and left the premises to the free use of the fleas. The school building stands on land that was formerly a swamp, and the season has been favorable for a flea crop.

L. W. Emerson yesterday received the Republican nomination for Senator for the nineteenth district, composed of Clinton, Essex and Warren counties. This district has been represented for four years by Hon. R. C. Kellogg. It is one of the districts that Gov. Hill proposes to capture by running the son of Smith M. Weed. Mr. Kellogg had no opposition in 1887. The district gave 4,911 majority for Harrison last fall.

The announcement that Major Warner had declined the Pension Commission's offer was premature. The President is looking for the man who will be most satisfactory to the Grand Army veterans, and it is understood that Warner will make the sacrifice of his big law business unless some other man equally acceptable is found. Democratic editors have recently been indulging the hope that a person would be selected whom the veterans do not want.

The National Association of Wool Manufacturers, at its session in Boston declared yesterday by resolution that "the manufacturers do not ask lower duties on wool than at present, and the grower is entitled to protection as well as the manufacturer." This resolution was adopted by a unanimous vote. Free trade newspapers have recently been depicting the woolen manufacturers of the country as in a state of revolution against the tariff. They were evidently mistaken.

The Republicans of New Jersey yesterday nominated E. Bird Grubb for Governor. The Philadelphia Record, Democratic, says the "Republicans have probably put their best foot forward" in making this nomination. Gen. Grubb is 48 years old and served through the war, beginning as Second Lieutenant and closing with the rank of Brigadier General. He is a wealthy iron manufacturer and resides at Beverly. There was much enthusiasm at the convention, and general confidence that victory was within reach.

SENATOR WM. C. SOMERVELL of the Maryland Legislature announces his withdrawal from the Democratic party and has sent the resignation of his office to the Governor. He proposes to act with the Republican party in the future, his reason being that he is disgusted with the Democratic party of Maryland. Cleveland's plurality in the state was only 6,182, and this narrow margin was attributed to Somervell's popularity in Baltimore. Twelve of the 23 counties in the state gave Republican majorities. The Republicans are greatly encouraged, and will make a vigorous effort to elect a Mayor in Baltimore.

Mrs. Eva HAMILTON pleaded not guilty yesterday. Her trial was to begin to-day, and it was expected that the testimony would be all in and the arguments of counsel concluded this afternoon. The wretched woman who was lately so successful in marrying "out of her set," is likely to spend several years in a Jersey prison. Even this, however, ought to be received as a relief, for the gallows appeared to be beckoning for her a fortnight ago. Mr. Hamilton has wholly deserted her, an act that he never considered for a moment until he became convinced that the baby was spurious.

Gov. FOWLE of North Carolina has issued a proclamation enjoining all officers to exert themselves to arrest the persons engaged in the recent lynchings in that state. Did Gov. Hill issue a proclamation to the officers of this state to arrest John L. Sullivan when he was engaged in a criminal proceeding punishable with fine and imprisonment? Not at all; our Governor could not interfere until some prosecuting officer or committing magistrate had initiated proceedings, we have been informed on Democratic authority. There is a very wide difference of view in regard to executive duty between our Governor and the Governors of North Carolina and Mississippi.

This year the amount of state taxes exceeds that of last year by the sum of \$3,460,000. The necessity of this unprecedented increase is difficult to explain. Gov. Hill of Sullivan County says:

Unprecedented, did you say, Governor? There you are off again as badly as when you called Gov. Young a Democrat. In 1869 the state tax was \$10,463,179, and in 1870 it rose to \$14,285,977, an increase of \$3,822,798. The state at that time had a Democratic Governor and Legislature. Again, in 1871 the state tax was \$11,613,943, and in 1872 it rose to \$18,590,883, an increase of \$6,976,940 or more than double the increase of which the Governor is talking. This increase was made by a Republican Legislature for the purpose of paying the bounty debt after the Democrats under Tweed had stolen \$15,000,000 of money raised for the same purpose in the five years preceding. Coming down to 1881, when A. B. Cornell was Governor and both houses of the Legislature Republican, we find the state tax to have been \$6,083,390, the lowest point reached in forty years. Two years later Grover Cleveland was Governor and the Legislature was Democratic in both houses. In that year the state tax rose to \$9,384,886, an increase of \$3,301,496 over 1881. If there is a public man in New-York more ignorant of the history of his state than Gov. Hill, the Democratic party will be glad to see him, for it certainly has use for him.

## Asking for Lower Coal Rates.

By Telegram to The Freeman.

WILKESBARRE, Pa., Sept. 18.—The first organized effort of the anthracite coal people to fight the bituminous men was made last evening at Scranton, when the Board of Trade of that City recommended that a conference of representatives of the anthracite trade be held at an early day for the purpose of taking some steps to get the railroad companies to reduce their rates for coal. The anthracite people claim that if they can get anything like fair rates from the railroad companies they can put anthracite in markets where bituminous now holds the board. In 1880 the output of bituminous coal was 4,370,000 tons; in 1888 it had increased to 12,250,000. Nearly all this growth has gone to supersede anthracite for steam production in the great factories of the Eastern States.

## SKIN CANCER.

Several years ago I was called to see a colored woman who had a malignant form of cancer on her foot. The cancer grew worse under the prescribed treatment, and the toes and one side of the foot were at length eaten entirely away. The patient could not have survived much longer, but I commenced the use of Swift's Specific, and it cured her sound and well. That was three years ago, and there has been no return of the disease. I regard Swift's Specific a most excellent medicine for blood diseases, as its tendency is to drive out the poison.

The Perfect of the Seine and Boulanger—  
The Rice Harvest—Georgia—A Remarkable Lunacy Case—The English Failure in Cyprus—Facts of General Interest.

A correspondent at Vienna writes: "The remarkable lunacy case of Prince Sulkovsky has just entered on another stage. The Prince may be remembered, who had been for six years an inmate of the asylum of Professor Ledeborff, at Döbling, a suburb of Vienna, escaped with the help of Fraulein Vesceghy, acting with her friend Frau Friedlander, and two of the officers of the asylum. With these ladies the Prince fled to Zurich, without his wife's knowledge, and demanded his wife's extradition to Vienna. The Swiss authorities decided that the Prince was a Prussian subject, and he was sent to Bonn in the Rhine. There he was taken to a State asylum, where he underwent examination by the authorities. Professor Pelman and the Director of the Asylum, Dr. Nothel. The result was that they declared the Prince Sulkovsky to be sane, and he was accordingly liberated. This turn in the affair will be anything but an agreeable surprise in some quarters. The Prince is the owner of estates in Austria, Hungary and Prussia worth \$1,000,000. In May, 1883, the Vienna Professor, Dr. Ledeborff, and his colleague, Dr. Obersteiner, pronounced the Prince insane, and his wife, formerly an actress, was accordingly intrusted with the administration of all his property. The present decision of the Bonn doctors restores to the Prince the management of his estates, and his wife, from who he is separated, will only be entitled to an annuity. George and his wife sold a valuable collection of ancient coins in the Castle Feistriz, belonging to the Prince, to the German Museum at Nuremberg, and a number of rare weapons to Baron Nathaniel Rothschild. The validity of these sales will now be questioned. The Prince's estates are being managed, on account of the Prince's estates being in the hands of three different countries, a circumstance which will probably render diplomatic interference necessary. The Prince, an hereditary member of the Prussian Upper House, has since early youth been a great eccentricity both in his social relations and in the management of money matters. On one occasion he bought, for instance, 4,000 ounces' worth of silk stockings in a single day. The London Spectator in a long article says: "The official correspondence in regard to the Prince's estates is very complicated. Judging by what English papers have done for him, he is not only a very rich man, but a very eccentric one. His family have, however, constantly opposed his wife in this."
